Experience

County of Marin Health & Human Services

San Rafael, CA

Technology Systems Specialist

Jun 2023 - Present

- Support reliable **IT operations** across county departments by partnering with system administrators, network engineers, and telecommunications teams.
- Administer user provisioning, permissions, and authentication workflows in **Active Directory** and **Microsoft 365 / Office 365** to strengthen secure access and account consistency.
- Coordinate office moves and **technology deployments**, including **device setup, network configuration**, and equipment installation while minimizing disruption to staff.
- Develop **technical documentation** and **training materials** that standardize workflows, speed onboarding, and reduce recurring support requests.
- Manage credentials and permissions for database-backed applications in **DBeaver** and support **Drupal**-based system integrations while coordinating with cybersecurity and facilities teams in a **HIPAA-aware environment**.

Nelson Painting

Sausalito, CA

Project Manager

Jun 2021 - Jan 2023

- Managed project schedules, subcontractor workflows, procurement, **vendor communication**, and client expectations across multiple active jobs.
- Led the design and launch of the **company website**, translating business needs into a stronger customer-facing presence.
- Improved procurement and vendor coordination processes to support smoother **project execution** and delivery timelines.
- Introduced **project tracking** practices that increased visibility and accountability across projects.

Your Mac Solutions

San Rafael, CA

IT Specialist Intern

Jan 2020 - Mar 2021

- Supported diagnostics, **hardware troubleshooting**, and technical upgrades for client systems in a hands-on support environment.
- Assisted with **system imaging, software installation**, and end-user configuration for **Apple-based environments**.
- Collaborated with senior technicians to deliver responsive **customer support** and reliable device setups.
